STRATEGIC CRYPTO RESERVE · SITE SCREENING REPORT

SAMPLE REPORT: verifier demonstration

Report date: November 21, 2026 · Model: AI Build Configurator v1.8.2 · Data vintage: Q4 2026 (rev. 12 Nov 2026)

This is not a real screening report. It exists only so anyone can test the report verifier at strategiccryptoreserve.ca/verify-licence.html on the Polygon Amoy test network. Its fingerprint is recorded on the testnet registry only. Change one character of this file and verification fails.

Item	Sample value
Location	British Columbia
Build profile	Neocloud / GPU-as-a-Service
IT load	20 MW
Cooling	Direct liquid cooling
Figures	Omitted in this sample

SAMPLE

Real Site Screening Reports are prepared with the AI Build Configurator for a specific site and delivered as PDF. Every real report issued from November 21, 2026 has its SHA-256 fingerprint recorded on Polygon, with only non-identifying details (issue date, model version, location and build profile). Client names and commercial terms are never written on-chain.
